Plastic surgeons who sculpt with care

## Desire Aesthetics...

Our doctors have a combined experience of more than 20,000 reconstructive and cosmetic procedures between them. We have a combined experience of more than half a century of reconstructive and cosmetic surgery in our surgeons, with procedures in all areas.

As we get older our body starts to rebel. Life events such as pregnancies, chronic disorders, lifestyle changes, accidents etc. all change the shape of our body.

We at Desire Aesthetics have mastered the art of re-structuring your body to where you remember it, where it gives you confidence again to maintain the shape with our After Procedure Counselling. We follow a standard pattern for all our procedures, this keeps you aware of what is happening at all stages.

### Liposuction & body contouring

A procedure where extra fat is removed from bags of deposits in the body. This will result in a more even body look. Our surgeons are experienced in using this as an aid as well in certain procedures.

### Gynecomastia

Is usually induced by hormones in men, in this condition an excess of breast tissue gets deposited in men. This is rectified through a combination of procedures and brings the chest shape back to an easily maintained and toned look.

### Obesity treatment

Sometimes fat depositions can become dangerous to health. Lifestyle and exercise limitation can happen. This is a cycle we can help you beat. We have an Obesity treatment centre that is at par with International ones and we are committed to non-invasive procedures to help you reach your goals.

## Breast Augmentation & Reduction

Desire Aesthetics has one of the best counselling, procedural and post procedural team working with you to reach the shape you like. We do this with minimal invasion and with a clear vision of what we are planning to achieve after sitting with you.

## Rhinoplasty

Rhinoplasty is a procedure which can be lifestyle changing. Straightening the midline of the nose and altering it's outline not only allows for better sleep and less snoring, it also reduces frequent airway infections. Augmentation and reduction of the nose size can be done according to your wish.

## Blepharoplasty

Eye lid Surgeries – under eye bags, drooping eye lid can be corrected to get fresh and young look.

## Desire Aesthetics...

### Otoplasty

Designing and reshaping of the ear is something we have vast experience doing. Sometimes after trauma or because of congenital issues the ear is mis-shaped, sometimes affecting hearing and usually drawing unwanted attention.

### Face lifts

Is an often done procedure to take care of wrinkles and sagging on the face with age. We combine procedures of skin tightening as well as some fat injection/Botox if necessary to provide a familiar contour to your face .

### Facial scars revision

Delicate surgeries like Z Plasty followed by laser can help removed the scars from trauma, infection or from birth. This will restore the smoothness of the skin.

## Desire Aesthetics...

### Hair Transplantation

We are experienced providers of this service with excellent results. The key to this again is detailed conversations before, to identify which areas need to be filled and how much. After care and information is also a vital part of this package.

### Skin tightening

Gives you back the skin of youth. Wrinkles and slight sagging are deftly removed non-invasively, this procedure is very commonly done.

### Skin tags, Lesions & Moles

These are always worth keeping an eye on. Our dermatologists will examine it, and if benign we can go ahead and remove it completely, restoring smooth skin.

# Desire Aesthetics...

## Chemical peels

These rejuvenating masks work to remove dirt which has borrowed into your skin not just physically, but also has been absorbed into the superficial layers of living cells. The peels not only remove the dirt they also add long term rejuvenating components for the skin itself. Leaving you glowing.

## Enzyme peels

Achieves partd of the effect of the chemical peel, using natural probiotic enzymes. Can be useful from a maintenance perspective.

## PRP vampire facelift

Platelet Rich Plasma ( PRP ) vampire facelift is a specialised facelift which naturally and with human blood components helps leave your skin glowing and restores the redness that maybe lost due to age.

# Desire Aesthetics...

## Botox

Is used to fill in hollows which may appear with age, these commonly are around the lips, the eyes and the cheeks.

## Laser hair reduction

Solves the stray hair problem at the roots. Repeated painful threading and eyebrow shaping, unwanted facial hair are avoided by opting for this procedure. It offers a much more long term solution to the problem.

## Fractional laser treatments

Is a laser procedural method which our equipment and surgeons are designed/experienced for. It results in much finer focusing of the laser beam, meaning we only work on the areas that are intended to.

## Desire Aesthetics...

### Derma Electroporation

Is a procedure which allows transportation of nutrient rich supplements and healing products across the skin without using needles. This is used in long term therapy of skin care.

### Medical graded Micro-Dermabrasion

Is the fine polishing of your skin to keep it smooth and rejuvenated looking. We use the latest equipment to keep the procedure pain free and you looking great at the end of it.

### Reconstruction in Cancer Surgery

We make life after cancer surgery pleasing and aesthetic all reconstructive procedures including microvascular surgery.

## Desire Aesthetics...

### Diabetic foot reconstruction

Diabetic foot can cause, depending on the severity, loss of toed, part of the foot and the whole foot itself in some extreme causes.

Our surgeons help to reconstruct this with surgery and prosthesis if needed.

### Trauma reconstruction

Post accidental recovery procedures and surgeries involving shaping of the body to fit a more pleasing contour can help the patient from several ways. First it may add functionality, second it will definitely improve the mental status of the patient, making any other recovery tools more enhanced.

Our surgeons and counselling team will work with the patient in every way to aid a speedy recovery to a good lifestyle.
